

Equipment Requirements

- **Shure beta-58 or SM58 microphone** or equivalent (x1)
- **Microphone Stand** (x1)
Boom microphone stand required.
- **D.I. x3**
- **Monitors** (x2)
- **Guitar Stand**

General Information

- Ben the Hoose stand on stage, **close together** and **right at the front of the stage**. Very occasionally, or if you ask us to, we may sit to play in a small venue.
- One send to the two monitors is adequate. The monitors must be run at low volume and carry a mix the same as that going out to the audience (minus reverb and EQ). We may ask you to turn the monitors off completely.
- The DI lines will be used for guitar and fiddle. Phantom power is required.
